MAKE IT STICK

5 Simple Ways You Can Make This Lesson Stick With Your Kids

THIS WEEK'S LESSON: LOVE OTHERS

Use these four common times in a preschooler's day to reinforce this week's lesson:

DRIVING:
Today we talked about the last five commandments that teach us to love others. Ask your kids what the last five commandments mean and how following them will make us more loving.

PLAYING:
Sit down with your kids and play a game this week. As you play, look for ways you can be kind and loving to one another and help your kids focus less on winning the game.

EATING:
Share a snack with your kids… something really yummy. Ask if sharing is a good or bad way to love others?

SNUGGLING:
Snuggle up with a blankie and your child and talk about ways you love him/her. This is a great time to talk about things you have seen your child do that demonstrated love to others (cleaning up toys when asked, using manners, etc).
